

## BIZCOURIER WEB SERVICES

Dear Partners,

We would like to inform you that BizCourier can now offer you the ability to have the Full Status History of your shipments in real time whenever you wish by taking advantage of BizCourier Full Status History Web Service.

Requirements	
Method	Description
<b>full_status</b>	Searches for a shipment by Voucher Number.  Returns as a Result an array with all the statuses and actions recorded for this shipment and the basic data of the Status and Action

The Web Service Result is the Status and Actions recorded for this shipment. Actions are extra procedures that BizCourier performs in order to achieve a Delivery. A full table of Statuses and Actions can be found at the end of the document. Date and time fields contain the date and time in which the status or action has been updated and may differ from the actual date and time.

### Web Service Call Input Fields

Input Fields	Description
<b>Voucher</b>	Shipments Voucher Number

## Web Service Output Fields
