

BIZCOURIER WEB SERVICES

Dear Partners,

We would like to inform you that BizCourier can now offer you the facility of creating unique product codes – Biz ID's directly from your company's software or website in pdf format by taking advantage of the Product Labels Web Service.

Requirements	
Method	Description
prodlabelfpdf	Gives as a response a Base64 string containing a pdf file with labels for the given product code.

Web Service Call Input Fields

Input Fields	Description
Code	* Client's Code.
User	* Your Username to login to https://www.bizcourier.eu
Pass	* Your Password to login to https://www.bizcourier.eu
Prod_Code	The product code required to generate labels: Example : 8687-000000001
Quantity	The quantity of labels you wish to obtain.

Web Service Output Fields

Output Fields	Description
Error code	0: Success >0 There is an error in the request
Error	Error Description
Product code	he product code used in your call
Base64_Label_PDF	Base64 string containing the pdf file with the labels

Details – Clarifications

**** The Labels are designed to be printed in label size 5cm * 1.5cm.**

We highly recommend that you print and scan some sample labels before you proceed with a full printing in order to ensure that barcodes may be scanned without errors.

WSDL

The WSDL file can be downloaded from the following address:

https://www.bizcourier.eu/pegasus_cloud_app/service_01/prodlabelpdf.php?wsdl

or emailed to you on request at itsupport@bizcourier.eu

You may start testing it with SoapUI Software by clicking on the link below: <http://www.soapui.org/>

If you require any further information or clarification please email your queries to itsupport@bizcourier.eu and we shall be more than happy to assist you.
